# GREAT LAKES VISUAL & PERFORMING ARTS ACADEMY

## WHAT WE DO...

Offering a comprehensive academic curriculum and intensive preprofessional training, students will be prepared for the rigorous competition of program acceptance at the college level, as well as experience for the professional art world.

## WHO WE ARE...

Well known for its excellence; Sandusky High School Arts programs have been nurturing, educating, and developing student creativity in areas of Commercial Arts, Visual Arts, Photography, Vocal and Instrumental Music, as well as Musical Theatre on a high level for decades. With the success of the Academy, we have expanded our academic course offerings to include Dance and Theatre as part of the curriculum. In the Academy students will have the opportunity to explore, create, and challenge themselves to excel in their chosen discipline.

## THEATRE

Theatre helps with understanding social relationships, complex issues and emotions. It also improves concentrated thought and story comprehension.

## MUSIC

Music improves math achievement and proficiency, reading, and cognitive development. It also boosts SAT verbal scores and skills for second language learners.

## DANCE

Dance helps with creative thinking, originality, elaboration, and flexibility. It also improves expressive skills, social tolerance, self-confidence, and persistence.

## VISUAL ART

Visual Arts improves content and organization of writing. It also promotes sophisticated reading skills and interpretation of text.

## ENROLL TODAY!
