

# OdysseyWare Student Agreement

## Sandusky Digital Academy

As a student who utilizes OdysseyWare, I attest that I will abide by the following practices:

- Regular attendance is required.
- While using OdysseyWare, students may not access the internet through other windows on the computer or through any other electronic device (except allowable music sites). Violation of this agreement will constitute a violation of the school's Responsible Use Policy and may result in students losing all computer privileges. Lesson will be completed using the pencil-paper method.
- I understand that grading practices and weights for all courses will remain as those set by the district—Projects (10%); Lessons (30%); Quizzes (30%); and Tests (30%).
- Students must take notes when they are completing each lesson. Please put your name first.
- Once a student is assigned a course, there will be no questions/lessons skipped, unless the student is attempting credit recovery (CRX). In the case of credit recovery, only those questions/lessons will be skipped that are automatically noted by the pretest results.
- Students are expected to complete lessons by the assigned due date and courses must be completed by the end of the semester.
- The district has set the maximum number of attempts for lessons at three (3), the maximum number of attempts for quizzes at three (3), and the maximum number of attempts at tests at three (3). These protocols will remain constant for all students and courses and will not be overridden.
- A passing score for student lessons, quizzes, and tests is set at 70%. Students scoring below 70% on the first attempt must retake the assignment to improve the score. If a student scores above 70% of his/her first attempt, then no more attempts are allowed. If a student must attempt an assignment more than one time, then the last score is always the one that will be counted, regardless of which score is higher.

- Student overall grades for the course will be determined based upon the grading scale.
- Students may listen to music using the provided headphones or bring their own. Music should be not heard by staff or peers. If music is loud you will be given a warning. Subsequent disregard for this rule will result in losing this privilege.
