

Family Health Services

School Based Clinics

Family Health Services Provides:

● ● ●

- General wellness visits
- Strep tests
- Sexual health screenings
- ER follow ups
- Immunizations
- Lab draws
- Gynecology exams
- Referrals for specialty care
- Return to school / work notes
- Behavioral health screenings and counseling

Providing Flexibility and Convenience

Family Health Services can provide your child with high quality health care without interrupting the school or work day. Our providers can offer your child medical and behavioral health services within Sandusky City Schools.

We are able to provide continuity of education. Instead of your child potentially missing hours of school time for a doctor or behavioral health visit, they can be seen inside our School Clinic and back to class within the hour!
