

**Building Better Dreams
to Transform Every Child,
In Every Classroom,
In Every School,
to Excellence.**

"Take 5"

An integral part of the Blue Academic 5K will be our push for academic fitness by ensuring that we have moved every child who is capable of demonstrating proficiency to proficiency on the OST. "Take 5" is built on Sandusky City Schools' culture and tradition of rallying around our children. We are asking all elementary teachers to "take 5" students in Reading and five students in Math that can demonstrate academic fitness and demonstrate proficiency on the OST. We are requesting that our Middle School and High School teachers enact "Take 5" by owning 5% of the students that are on their current school year roster.

Take Five students are selected from the students that have been identified because they are in the performance index adjacent to proficiency. These students will receive strategic interventions in an extended day and in-school day setting.
